**I am an entrepreneur, capable of entering into corp-to-corp (C2C) contracts.
Flexible working hours, adaptable to CET or EST. Working remotely from Europe (Serbia).**

Profile

Frontend developer with 15+ years of experience and a strong background in team leadership and mentorship. Trained for a Tech Lead role in the current company, mentoring junior developers and coordinating tasks. Over 20 years of tutoring experience, leading groups of up to 30 people, which shaped strong communication, coaching, and leadership skills.

Core Skills

- Leadership & Mentorship: team guidance, code reviews, tutored 200+ students annually
- Frontend: React, Redux, TypeScript, Next.js
- Backend: Node.js, Express, MySQL, GraphQL
- Tools: Contentful, Optimizely, SFMC, JIRA, Git, SAFe

Experience

- Senior Frontend Developer – AshleyMadison.com (2021–Present)
 - Migrated landing pages to React/Next.js with Contentful + GraphQL.
 - Optimized core application (React, Redux, Saga).
 - Built dynamic marketing emails in Salesforce Marketing Cloud.
 - Implemented A/B testing via Optimizely.
 - Mentored junior/mid developers and prepared for Tech Lead role (not promoted due to downsizing).
- Programming tutor for groups of 20+ students - CodeAcademy 2019-2021
- Programming tutor for groups of 20+ students - IT Bootcamp 2018-2019
- Freelance programmer – 2010 - 2018
- Programming Tutor & Mentor (2000–2010)
 - Taught 200+ students annually in programming.
 - Led group sessions (up to 6 people) and mentored individual projects.
 - Developed customized teaching methods for diverse learning needs.

Projects

- E-commerce/websites: ekozmetika.rs, chairs.rs, bupti.org, furnix.rs, decijemajice.rs
- Games: shortwhist.com, wordzap, crickler, enigma, wired (js13k competition).
- Backend: developed apiX framework in PHP for admin panel and automatic API endpoints based on MySQL db.

Education

- Faculty of Organizational Sciences (FON) – Information Systems and Technologies
- Nikola Tesla Electrotechnical School – IT profile
